

Bio Menace - Secret Moves

Super Plasma Bolt

Hold the up arrow for about two seconds, until you hear the charge-up noise, and then press the fire key. You will take one hitpoint of health for doing this.

Fireball Weapon

Turn left and right in succession about 6 or 7 times really quickly, and then press the fire key.

Personal Shield

Turn left and right in succession about 6 or 7 times really quickly, and then press the jump key.

Invincibility

Hold the up arrow at least 1.5 seconds or so, and then press the down arrow. You will glow, and will be invincible. However, this lasts a *very short* amount of time, so it should only be used in extreme emergencies.
